ON SPITTING OF BLOOD AND HEMORRHAGE FROM THE LUNGS.

*To the Editors of the Gazette:*

Of all the symptoms which indicate the approach of consumption, there is none of such fearful significance as the occurrence of "*streaks of blood*" in the mucus expectorated. If this symptom does *not* tell us that *tubercles* are now actually deposited, it *does* tell us that the lungs are *obstructed* and *congested*, and in a very precarious condition. The quantity of blood brought up from the lungs may vary from a few streaks to a pint. The danger lies in the *tubercles*, which this symptom tells us are *now* deposited or about to be deposited in the delicate air tubes and cells of the lungs; and a few streaks of blood in the sputa are as strong a proof of this as the loss of a pint. It is very rare that the disease is aggravated by the loss of blood from the lungs. The alarm which patients feel at the first sight of blood is natural enough, for they cannot know what is the fact that *those who spit blood from time to time have a better chance of cure than those who do not lose a drop.*

Spitting of blood is *sometimes* the first symptom of consumption apparent to the patient. More commonly, it does not occur until the disease is fully established. Many consumptives never spit blood at all. Baron Louis found it in *fifty-seven* cases out of *eighty-seven*, Andral in *five* cases out of every *six*, and Dr. Walshe in *eighty-one* cases out of every *hundred*, so that we may set it down as a rule, that the loss of more or less blood from the lungs occurs, during some period of the disease, in about *four* cases out of every *five*.

What is the cause of spitting of blood? It is caused by whatever *obstructs* the free passage of the blood through the pulmonary capillaries. Every pulsation of the heart pumps into the lungs, to be distributed over the air cells, a certain quantity of blood. As the heart never ceases its action, it will be understood that a steady stream of blood is flowing *from* the heart *to* the lungs. Now, if the lungs are healthy, this blood becomes *purified* and *vitalised* by exhaling its *carbon* into the air cells, and absorbing *oxygen* from the air we breathe, and is then returned again to the heart, from whence it goes to nourish and sustain the system. But let us suppose the lungs *obstructed* by the presence of *tubercles*, or by what is quite as prejudicial, viz. *sticky, tenacious mucus* in the air tubes. In the first case, the vessels through which the blood must pass are obstructed, and in the second, the tubes through which the air passes. The consequence is, that the impure blood flows with difficulty and stagnates in the delicate vessels of the obstructed part. We physicians say, the lung is *congested*; by which we mean that the vessels are full almost to bursting, like the vessels of the eye when it is *bloodshot*. This condition continues for a longer or shorter period, and then the vessels relax, and allow the blood to ooze through their coats, as fluids do through a *filter*, and the patient coughs it up. If the congestion is considerable, the quantity of blood will be greater; but no matter how much, or how little, it indicates that the lungs are in an unhealthy condition—in a word, that they are *obstructed*. It is the business and the duty of the physician to discover the *nature* of the obstruction, by a careful examination of the chest, and then to prescribe proper means for its removal.

It is a common belief that blood comes from the *breaking of a bloodvessel*, and this idea is entertained by many physicians. This is no more true than it would be to say that *bleeding from the nose* comes from the breaking of a bloodvessel. The blood *merely oozes through the coats of the relaxed vessels*—in medical phrase we say it is *exhaled*.

From what I have said it will be understood that *spitting of blood* is an alarming symptom, as showing the progress of a treacherous and most fatal disease within the lungs. Either *tubercles* are already deposited when it occurs, or from this time their deposition may be expected to commence. The stopping of the blood gives no assurance of safety, for it seldom continues more than a few days at a time, nor does its recurrence indicate any increased danger to the patient. Its cause lies deeply within the chest, and no remedy which does not go to the root of the evil and remove the obstructions within the lungs is of the least permanent value.

Physicians too often cheer their patients by the assurance that the blood *only comes from the throat*. Let me warn the invalid against being deceived. The throat seldom bleeds—never, unless it be struck by some hard substance and wounded! If blood is coughed up, however small the quantity, it comes from the lungs, and delay is dangerous. Fortunately, it generally occurs before the disease is far advanced, and if proper treatment be employed, it can generally be arrested. The great error committed by physicians is in treating the symptom itself, while the cause which produces it is left in undisturbed possession of the lungs.

It will be asked if hemorrhage never occurs where the lungs are not diseased? Yes, there are *three* causes which may produce it: *First*, injury to the lungs, as from a violent blow; *second*, organic disease of the heart; and *third*, in females it may occur every four weeks, instead of the usual periodic excretion. But if a person spits blood in whom none of these causes exist set it down as a sure sign that the lungs are unsound. Bear in mind, also, that palpitation of the heart and irregularity are far oftener the *effect* than the *cause*. Patients will understand the fearful import of this symptom when I tell them that Baron Louis, an eminent French authority on consumption, *did not meet with a single instance out of twelve hundred cases in which the loss of blood was not preceded or followed by the development of tubercles.*

With this I close my observations on the *symptoms of consumption*, and shall, in my next Letter, describe the varieties of this disease.

Your obedient servant,
R. HUNTER, M. D.

**Dr. Keyser's Great Blood Searcher.**

The wonderful cures made in Pittsburgh and elsewhere, by this most extraordinary medicine, is beginning to be generally appreciated throughout the community. DR. KEYSER'S BLOOD SEARCHER has worked its way into public esteem, by some of the most extraordinary cures we have ever been called upon to chronicle—cures that have been solely made in bringing the system from a dejected, despondent condition, when all the powers of Nature seemed to flag and refuse their functions—where the blood loitered slowly in the veins, and where the symptoms of decay manifested themselves throughout the whole body—decayed bones, ragged ulcers, long standing tetters, gave evidence that the whole system was falling to ruin; and in an hour when these evils seemed incurable, DR. KEYSER'S BLOOD SEARCHER, coincident with that critical and formidable exigency, was brought to bear in resuming the lamp of life, and giving an impetus to throw off disease, and restore the long-lost vital energies to health and vigor. Dr. Keyser's Blood Searcher will invariably restore tone and vigor to the stomach. It will cure costiveness. It will enrich the blood with new plasma, and drive it onward in its mission of renewal to the over-tasked and over-worked organs of the body, with a certainty and power not belonging to any other medicine. Unlike most bitters and stimulants, that after their force is spent, leave the system weak and prostrated, it invigorates without an after-prostration, and, whilst it cannot make health without food, it will enable the stomach to make use of that food, and convert it into healthy and useful blood material, fit to be absorbed into the circulation for the uses of life.

Ask for Dr. Keyser's Blood Searcher and reject all others. $1 per bottle; six for $5, at the great medicine store, 140 Wood street. Medical consultation rooms, 120 Penn street. Office hours from 9 A. M. until 4 P. M.

## FROM WASHINGTON.

### The Virginia Delegation,

### INTERVIEW WITH THE JUDICIARY COMMITTEE.

### Visit to the President.

### PROTESTANTISM AT ROME.

WASHINGTON, March 15, 1867.

CHANGE OF NAVAL OFFICERS.

Captain Joseph P. Sanford is relieved duty as fleet captain of the North Pacific squadron, on the arrival of the Pensacola at San Francisco, and ordered to command that vessel. Captain John L. Worden is relieved from the command of the Pensacola, on her arrival at San Francisco, and ordered to return to New York. Commander Paul Shirley is relieved from the command of the Suwanee, on the arrival of the Pensacola at San Francisco, and ordered to duty as fleet captain of the North Pacific squadron.

PROTESTANTISM AT ROME.

The President communicated to the House a letter from Minister King, dated February 17th, in which the latter says he directed the arms of the American Legation to be placed over the building in which the American chapel is located. This, it seems, satisfied the requirements or scruples of the authorities, and thus far no one has interfered with them, nor does he believe they will be disturbed during the present season. The authorities may hereafter insist upon the rule that the worship shall be held under the minister's roof. He says one solution of the difficulty has been suggested. This is to purchase or hire for a term of years a building for Legation purposes, including ample accommodations for a chapel. Under this arrangement there would be no further question as to the right of American Protestants to assemble for worship within the walls of Rome.

NOMINATION CONFIRMED.

The Senate to-day confirmed only one nomination, that of a captain in the army. The time was principally consumed in referring nominations to appropriate committees.

CUSTOMS RECEIPTS.

The Customs last week at the principal ports amounted to $5,399,257.94.

DELEGATION FROM VIRGINIA.

The delegation appointed by the Legislature of Virginia called yesterday on the Senate Committee on Judiciary. The interview was of a highly satisfactory character. The Committee avowed their earnest intention to return to their place in the Union under the terms proposed by Congress. The delegation, just previous to their return to Richmond, visited the President, who, according to the statement of one of the members of the delegation, said he was opposed to the object of their mission; that notwithstanding his opposition to the Reconstruction bill, it was now a law of the land, and he should now faithfully execute it; that he thought the Legislature had done right in promptly accepting its terms, which would tend to alleviate the bitterness produced by the late war, and at an early day restore the Southern States to all their relations to the Federal Government.

THE SPANISH MINISTER.

Senor Don Facundi Goni, the newly accredited Envoy Extraordinary and Minister Plenipotentiary of Spain, was received by the President to-day. In his remarks, Goni said: "The principal object of the mission which has been confided to me, is to maintain, as my worthy predecessor has done, and even to draw more closely each day, if possible, the relations of friendship which unite Spain with this Republic, by bringing to a close at the present, and avoiding in the future, every question capable of disturbing the harmony which exists between the two nations, and which my government desires to preserve; also worthily with all the States of America. I hope to merit your good will and the cooperation of your enlightened government, holding myself fortunate should I achieve the full accomplishment of so noble and elevated a purpose."

The President, in reply, welcomed Goni and added: "The United States and Spain were at first allies; they have never ceased to be friends. I sincerely hope these relations, conducive to the prosperity of both countries, and to the peace and progress of freedom throughout the world, may continue forever."

**Labor Question Excitement—Yellow Fever at Panama—Destructive Conflagrations in Georgia—Fenian Excitement.**

NEW YORK, March 15, 1866.

THE LABOR MARKET.

The present and prospective condition of the labor market is exciting considerable interest among the working classes of New York. The *Herald* says the advanced rate of remuneration, with few exceptions, are only contemplated by men of building trades. Ship building is dull, and the mechanics employed are working at reduced wages. The present unsettled state of the labor market has been unparalleled for years.

YELLOW FEVER AT PANAMA.

Panama correspondence to March 4th reports the prevalence of the yellow fever. Sixteen deaths from the disease had occurred on board the U. S. ship Jamestown. The Executive officer, John C. Adams, died on Washington's birthday, and a paymaster and another officer were in a critical state.

HALF A TOWN BURNED.

A dispatch has been received announcing the burning of half of the business portion of Albany, Ga.

THE FENIAN EXCITEMENT.

The excitement at the central headquarters of the Fenian Brotherhood is unabated. An important communication was received to-day from the Executive of the Provisional Government of the Irish Republic, to the effect that the war has been commenced in earnest, and that the movements of Irish troops up to the present were merely feints to cover more important ones which will be inaugurated ere many days. He also stated that the men were in good courage and trim for fighting, and anticipate success. Stephens had been in Paris for some time, but practically speaking is disconnected from the organization. An effort is being made which is believed will result in a fund of $1,000,000 being established. The members of the old directory of 1843 are also about to hand over the fund remaining in their hands to the care of a committee, to be used in the furtherance of the movement in Ireland.

General Gleeson arrived in town to-day from Washington.

HORSE TRAINER DEAD.

Hiram Woodruff, the celebrated horse trainer died last night.

INCORRECT REPORT.

The reported failure of the Waukegan Mills, at Providence, R. I., proves incorrect. The error, it appears, arose from the fact that Orray, Taft & Company, who recently failed, were treasurers of the Waukegan Mills, and a heavy line of prints, known as the Waukegan Prints, owned by Orray, Taft & Company, were recently sold at a heavy sacrifice. The Company is not affected.

**Seizure of Chinese Goods.**

SAN FRANCISCO, March 15.—Chinese goods to the value of half a million of dollars have been seized by officers of the Government for alleged undervaluation. Importers generally regard the seizure as unwarranted and arbitrary. Chinese merchants have telegraphed to Hong Kong, revoking all orders for goods until the matter is settled.

**The Virginia Legislature and Reconstruction.**

RICHMOND, March 15.—The Senate to-day adopted a resolution appointing a Joint Committee to wait on General Schofield and tender him their co-operation by passing and executing laws to promote harmony and peace.

BALTIC PORTS CLOSED.

ST. PETERSBURG, March 15.—*Evening.*—The ports in the Baltic are closed by ice.

THE EASTERN QUESTION.

LONDON, March 15.—*Evening.*—It is stated that the European powers have failed to agree on the Eastern question. Prussia demands additional concessions for the Christian subjects of the Sultan.

Dispatches from Constantinople state that the Turkish Government is determined to continue the war in Candia, and is preparing to send ten fresh battalions of troops to the Island, under command of Hazzam Pacha.

ATLANTIC CABLE BANQUET.

LIVERPOOL, March 15.—The American Chamber of Commerce gave a grand banquet to-night in honor of the heroes of the Atlantic Cable, at which five gold medals were presented to Cyrus W. Field, Captain Anderson, Mr. Canning and Mr. Willoughby Smith. The entertainment was a splendid affair. The American Minister and all the leading American merchants of the city were present. William Rathbone, Esq., presided. The usual loyal toasts were given, and the health of the President of the United States was drank. Mr. Adams, in reply to a highly complimentary toast, disclaimed all personal credit for the maintenance of peace between England and America, saying his course had been dictated by the American government. He thought the magnitude of the relations between the two countries has been the guarantee of peace. The telegraph would, he hoped, strengthen that guarantee, and ultimately supercede diplomacy and move the world into one nation and one language. Mr. Rathbone, Chairman, proposed the health of the projector of the Atlantic Cable and his associates. He awarded the highest credit to Mr. Field, as the projector of the great undertaking, and extolled his perseverance.

Mr. Field returned thanks for the honor extended. He said he would be ever grateful for the valuable memento he had received. He contrasted the present success of the cable with the severe disappointments the work had met with in the past. He did justice to all engaged in the great enterprise, from the government authorities down to the sailors and workmen. He said the existing cables were perfect in construction and could do twelve times the amount of work which was offered. He, therefore, hoped the tariff on messages would soon be reduced so that both lines might be kept constantly in operation. He was in favor of allowing the transmission of political intelligence to the press on both sides of the ocean at rates which would enable them to publish the full news of the world every day. He promised the working facilities of the cable should be improved and extended in America, and eloquently expatiated on the future benefits to be derived when these improvements had been completed. He concluded by hoping the Atlantic cable would be the means cementing the friendship of the two nations, that words of enmity might never come between the mother and the child. Mr. Fields' speech was received with most enthusiastic applause.

Captain Anderson made a speech, in the course of which he declared that had it not been for the exertions of Mr. Field, the cable would never have been laid. A speech was also made by Mr. Willoughby Smith. Mr. Canning was unavoidably absent.

STEAMERS ARRIVED OUT.

VALENTIA, IRELAND, March 14.—The steamship Delaware, from Philadelphia via Norfolk, arrived this morning out of coal.

LIVERPOOL, March 14.—The steamship Helvetia, from New York, arrived out.

RUSSIA AND CANDIA.

A telegram from St. Petersburg says that at the banquet, the Grand Duke Nicholas proposed a toast to the Greek volunteers in Candia, who had fought so heroically and sacrificed their lives for a great cause, and whose brethren were the only allies of Russia in the Crimean war.

An Imperial ukase has been issued extending the emancipation of the serfs to the peasants in Mingrelia.

WAR VESSELS FOR THE IRISH COAST.

LONDON, March 15.—*Noon.*—Four more vessels of war sailed for the Irish coast. Fears are entertained of the rising of Irish in Liverpool.

THE UNIVERSAL EXPOSITION.

PARIS, March 15.—The Universal Exposition will be informally opened on the 1st of April. The inaugural ceremonies will take place at a late day. There has been a rise in Imperial Mexican bonds, in consequence of a rumor that they are to be converted into French three per cent. rents.

FENIAN ADVICES.

DUBLIN, March 15.—*Evening.*—Forty Fenian prisoners were committed at Limerick for high treason. Archbishop Cullen prays the Government for clemency to the rebels. A rising on Sunday next is feared.

GONE TO CRETE.

LONDON, March 15.—United States advices state that the United States steamer Canandaigua had gone to Crete.

COMMERCIAL INTELLIGENCE.

LIVERPOOL, March 15.—*Noon.*—The cotton market in the beginning experienced considerable of a decline, and transactions were light, but the market gradually recovered from the depression, and the quotations for three days past show an increased firmness and upward tendency in prices. The sales for the week were 63,000 bales. The market opened firm to-day at the following authorized quotations. Middling upland, 13⅝d; Orleans, 13⅞d; sales estimated at 10,000 bales. Corn was selling to-day at 39s 9d for mixed western. Provisions steady and prices unchanged.

[*By Mail.*]

NEW YORK, March 15.—The New Hamburg steamship Harmonia, from Hamburg on the 22d, via Southampton on the 6th, arrived to-night, making a remarkably rapid passage.

The resignations in the British Ministry were Lords Carnarvon and Cranbourne, and General Peel.

In the House of Lords, Derby expressed regret at the three resignations, and said that the Government would speedily again be complete, and would endeavor to bring to a successful conclusion the question of reform.

In the House of Commons, D'Israeli announced that the Cabinet had resolved to revert to their original policy in regard to the franchise, and hoped on the 8th to complete the new ministry. On the 18th, he proposes introducing a new reform bill and move its second reading on the Monday following, and if it went into Committee, he would ask the House to complete its passage. The *Times*, in its leader on the resignations, said: "This charge was essential to the continued existence of the ministry." Northcote, it appears, succeeded Cranbourne as Secretary of State for India.

VIENNA DIET DISSOLVED.

A Vienna telegram says the dissolution of the Diet of Morovia and Corinthia has been determined. Both these bodies have opposed the assembling of the Austrian parliament. The Emperor would proceed shortly to Perth to receive the oaths of allegiance of the Hungarian Ministers. The Gallician Diet resolved to send deputies to Reichstadt. The Lower House of the Hungarian Diet adopted by a large majority the bill for a levy of forty-eight thousand troops in Hungary and Transylvania.

Denmark has concluded a Treaty of Commerce with Japan.

The *Times* believes all parties are bent on working together to procure a thorough settlement of the reform question.

Mr. Gladstone announced in the Commons that if the reform bill contained the elements of a satisfactory settlement the opposition would not receive it in grudging spirit, but with a desire to bring the endeavors of the government to a prosperous issue.

The cholera has considerably diminished on the island of Jersey.

Empress Carlotta has entirely recovered.

The French iron-clad Cronne lost in a hurricane in the gulf of Lyons; several of the crew perished.

## THE FENIAN INSURRECTION.

**A Movement on Canada—Artillery Sent to Toronto—Brisk Business in New York**

OTTAWA, C. W., March 15.—There are rumors of a Fenian movement near St. Albans, Vermont, and it is stated the government has important information on the subject.

MONTREAL, March 15.—One hundred and twenty-five regulars left Champlain this morning. A strong force of Royal Artillery, with eight pieces, will go to the frontier to-day.

TORONTO, March 15.—There will be a movement of forces to-day. Particulars withheld for the present.

NEW YORK, March 15.—Business at the Fenian headquarters continued brisk. Yesterday arms and money were still being sent in, and several deputations from circles of the Roberts faction had arrived and tendered aid to the men in Ireland.

A RENDEZVOUS FOR TROOPS.

TORONTO, C. W., March 15.—The military authorities are making active preparations to receive the Fenians, should they attempt another raid. Half a battery of artillery and fifty men of the Seventeenth Regiment were sent to Brantford this morning. It is expected two troops of Huzzars will join them in a few days. A brigade, to consist of artillery, cavalry and infantry, of the regular army, and ten thousand volunteers, will rendezvous at Brantford. From this place they can be transported east or west on short notice.

PREPARING FOR THE RAID.

OGDENSBURG, N. Y., March 15.—The Fenian excitement is reviving in this direction. Fort Millington, at Prescott, has been put in a defensive condition and garrisoned with troops. The Provincial authorities regard this as an objective point of the Fenians, and are hurrying forward troops to its defense. On Wednesday the first detachment arrived, and yesterday the number was increased to 300, and others are on the way. Last night the Superintendent of the Ogdensburg and Lake Champlain Railroad received a message from Montreal requesting the railroad ferry steamer to discontinue night trips. An unusual number of strangers are traveling this way, and rumor connects them with some new Fenian movement about to take place. For three miles above this place the river is frozen and the ice would afford a safe crossing for an army were one there ready to cross. The Fenians here are holding night meetings, but maintain the utmost secrecy in regard to future designs.

**Graham & Byrne, 52 St. Clair Street.**

Without a neat and becoming hat, man can never look dressed. His whole wardrobe will appear to disadvantage, if the hat is slouchy and out of style. Here anybody wearing a bad hat is inexcusable, for at such great stores as that just opened by our friends Graham & Byrne, No. 52 St. Clair street, the very neatest articles can be procured at the most reasonable prices. Mr. Graham of this new firm is not unknown to the hat trade. He has had long and liberal experience, having been connected with the well known house of Fleming and Company, and will devote his exclusive attention to building up, as he deserves, a first class trade. The stock found in this house is new, and has been selected with great care and judgment so as to please all tastes. It embraces all the latest styles and will be sold at the lowest marginal prices. The attention of our readers is directed to the card of the firm, which appears in another column. When you are in need of any article of head wear for yourself or family, do not fail to look in the store at No. 52 St. Clair street.

**Best Lightning Rods Made.**

The attention of our readers is directed to the advertisement, in another column, of Munson's copper tubular lightning rods with spiral flanges. Where an article is so universally in use in our midst, we feel that it is unnecessary for us to dwell at length upon the superiority of these rods over any ever put to use, either in this country or in Europe. They are so scientifically constructed as for one to be able to carry off as great a charge of electricity as twenty of the old fashioned rods. It neither rusts nor gets out of order, and is a perfect safeguard against lightning. It is recommended by one of the wisest electricians and scholars, and has carried away first premiums in every contest it has participated. Competent workmen will go with and put up the work in any section where ordered, without extra charge. Lockhart & Co. are the manufacturers, below Hand street bridge, on Duquesne Way. We commend these gentlemen to the patronage of our friends.

**Indian Herb Doctor.**

Dear Sir: I take pleasure in informing you that your medicine has been the means of saving my life. I have been troubled with a bad cough, spitting blood, pain in the back and breast, weakness, nervousness, &c., so bad that no medicine which I could procure did me any good, until I applied to you. I am now perfectly restored.
MISS SARAH WISLE,
Livermore, Westmoreland Co. Pa

My daughter has been troubled with Scrofula. She had five running ulcers when I placed her under the Indian Herb Doctor's care. She was reduced to a skeleton. All the ulcers are cured but one and that will be healed in a few days.
MRS. CHARLES COMP,
Temperanceville.

The Doctor's office is No. 194, Liberty St.

**District Court.**—Before Hon. Moses Hampton. This Court met yesterday, but adjourned without transacting any business. The attending jurors were discharged. A new panel will be in attendance on Monday.

**Serious Accident on the Pittsburgh, Columbus and Cincinnati Railroad.**

An accident occurred on Wednesday evening, between five and six o'clock, on the Pittsburgh, Columbus and Cincinnati Railroad, which resulted in the loss of one life and the serious injury of other passengers. The No. 2 Cincinnati Express train, which should have left here for the west at 2:10, was detained waiting for the eastern connection, and did not leave until 3:15. At Midway Station it passed the Steubenville Accommodation train, and went on to Hanlon's Station, a short distance this side of Steubenville, where it switched off to take in water. While there the Steubenville Accommodation also ran upon the switch, and came in violent collision with the express train.

Mr. G. H. Kilgore, a passenger from Port Washington, Ohio, was instantly killed by the collision, and four others received serious, though it is not thought fatal injuries. Several other passengers were cut about the head and bruised, but were able to go on in the train which proceeded westward in a few hours after the collision. The seriously wounded passengers received immediate attention, and were removed to the United States Hotel at Steubenville, where everything is being done for their comfort. At last accounts they were all doing well. The conductor of the express train was Mr M. H. Eastham. The place of the collision was around a curve. We understand that an investigation into the causes of the accident will be made. The Eastern bound trains were detained by the accident for several hours.

**Paint up your Houses.**

It is just the season for painting up your places of business and dwellings, and from present appearances our town will present quite a respectable appearance before May sets in. In this connection we might be permitted to say a few words in commendation of our friend Gray, No. 46 Hand street, who handles the brush with nicety and perfection. He has long enjoyed a tip top reputation and evidences of the superior character of his work exist everywhere about us. He gives personal attention to all business entrusted to him in the way of house and sign painting and guarantees in every case to give decided satisfaction to those who secure his services. He uses nothing but the first quality of materials and paints which are warranted to stand even the soot loaded atmosphere of Pittsburgh. We know whereof we speak when we recommend Mr. Gray as a painter, and trust his already large share of the public patronage may be increased.

**Assaulted an Officer.**

Robert Morrow, the driver of an express wagon at the Allegheny depot, got into a fight on Thursday evening with another driver. Officer Noble interfered, and Morrow, when the officer had his back turned towards him, struck him over the head with the butt of his whip, felling him to the ground. He then made his escape. A warrant was issued for the arrest of Morrow, and placed in the hands of officer Campbell, but yesterday morning, before the warrant could be served, he came to the Mayor's office and delivered himself up. He was held to bail for a hearing.

**Ladies' Crinolines.**—Elsewhere we publish the announcement that those extensive hoop skirt manufacturers of 97 Chambers street, New York, Messrs. Wests, Bradley & Cary, have gotten out their Spring style of the famous Duplex Elliptic skirts, which will prove the handsomest and most comfortable style ever introduced. Bradley's Duplex Elliptic skirts have become widely known and are more generally used throughout the world than any other manufactured. All of our dealers here have found them very popular with their patrons, and sell each season an enormous quantity of them. New fashions of Paris Trails, Pride of the World, and Tip-top skirts have also been introduced, which are sold everywhere. See the advertisement.

**Cutting Affray.**—On Wednesday night last a man named James McKenna got into a fight with some parties on Liberty street near the depot. His opponents used a knife, and McKenna received a cut extending from his left ear to his chin, and another cut under the right ear. His coat was cut from the top of the left shoulder across the breast. He was taken into the Rush House, where it was ascertained that his cuts were not deep or serious. The name of the party who did the cutting is not known. No arrests have been made.

**False Pretences.**—C. A. Boucher, of the firm of Shields & Boucher, grocers on Smithfield street, yesterday prosecuted, before Alderman McMasters, a man named Liston, for false pretences, alleging that defendant obtained ten of the firm to the amount of $2 82 by representing that he had been in the employ of Messrs. Collins & Wright, and had money due from that firm. These representations were found to be false. A warrant was issued.

**In Another Column** to-day will be found Dr. Hunter's fifth letter—no less interesting than any of its predecessors. The Doctor corrects several popular errors entertained regarding the spitting of blood and Hemorrhage from the Lungs. The reader cannot fail to be struck by the invaluable information given to the public in this letter—on a subject universally regarded heretofore with a kind of mysterious terror.

**For a New Trial.**—R. S. Morrison, Esq., has filed a motion and reasons for a new trial in the case of the boys Rigby, Murta and Dott, convicted of robbing the book and stationery store of James H. Aiken. The reasons assigned are that the confessions upon which the prisoners were convicted were extorted under oath, in violation of the Constitution, and newly discovered evidence concerning the defendant Dott.

**Broke a Carriage.**—C. O'Neil, keeper of a livery stable, on Webster street, yesterday made information before Alderman McMasters, charging Joseph Johnston with malicious mischief in driving his dray intentionally against a carriage belonging to deponent, and breaking the same. **Sent to the House of Refuge.**—John Shrowd, a boy of fourteen, was sent to the House of Refuge yesterday by Mayor Morrison. He has been for some time with his mother at the Widow's Home on Webster street, and had become so troublesome as to be unendurable. He strongly objected to being sent.

**Personal.**—We had the pleasure of a call yesterday from our esteemed friend Charles E. Pratt, Esq., Agent for West, Bradley & Carey's world-wide famed hoop skirt factory. ## WHAT SHALL BE DONE?

That the just expectations of the People of this Commonwealth, touching the enactment of a Free Railroad Law have been grievously disappointed, is undeniable. Pending the last General Election, in view of the manifestation of public opinion, the managers of both political parties felt constrained to give pledges to countenance and support the measure. This was done in authoritative and solemn commitments by the Republican and Democratic State Conventions, and by published letters from the competing candidates for Governor. The two parties and their respective nominees vied in striving which should go farthest in satisfying the popular demand. Success in the election devolved the chief responsibility on the Republicans. But in the hour of trial, both parties have been found wanting, and in equal degree.

A bill nominally to authorize those who will to build railroads has, indeed, passed one branch of the Legislature, and is likely to get through the other. But, if it shall become a law, not a mile of railroad will ever be built under it. The members who were instrumental in engrafting certain peculiar provisions upon it, which we have heretofore fully pointed out and elucidated, meant to hinder, not facilitate, railroad construction. They did not dare, under the circumstances, flatly to refuse a Free Railroad bill; and so they determined to pass one that should amount to nothing, except to reveal their own duplicity and untrustworthiness. The people asked a fish, and a stone is given them. The people will prove surpassingly patient, if they do not have a settlement in righteousness with their deceivers.

Last autumn the United States Circuit Court, upon a full hearing of all the evidence, decided the law repealing the charter of the Pittsburgh and Connellsville Railroad Company to be unconstitutional and void. An appeal was taken from this decision to the Supreme Court at Washington, doubtless not with an expectation of having it reversed, but to cause delay, as several years must elapse before the case can be reached in regular order of the calender. A vague hope, perhaps, animates the opponents of the road, that the chapter of accidents may turn up something to their advantage before the case shall be ultimately disposed of.

At the opening of the present session of the Legislature a bill was introduced into the Senate to repeal the repealing Act. This bill was predicated on the total failure of the defendants in the suit before the Circuit Court to produce evidence that the charter had been forfeited, and upon the finding of the jury, under the ruling of the bench, that the charter was wrongfully and illegally annulled. At first it seemed fully certain that this bill would go through; but the northern Senators, of both parties, went square against it and it fell.

Members of the House expressed indignation; gave assurances that the bill would easily go through their branch, and thus a re-hearing be obtained in the Senate; and so the bill took a fresh start in that body. When the final vote was reached the bill was lost. One of the members who voted against the bill was on the jury of the District Court, and helped give the verdict recorded. If he has a word to say in self-defence, the public would like to know what it is.

At this distance it looks as if the Senate was "set-up" at the beginning, perhaps four of its members having "been seen." That the House felt outraged by this partiality, assumed a virtuous indignation, and compelled the opponents of the bill to "come down." It may be appearances, in this case as in many others, are deceptive. We should be sorry to do distinguished gentlemen injustice; but the look so completely justifies the suspicion, we cannot refrain from giving expression to it.

If any man supposes a result more favorable to the general interests of the Commonwealth, and especially to the interests of the Western and Midland portions thereof, can be obtained by going on in the tread-mill of the old political parties for one or more years longer, we beg to say we widely differ with him in opinion. As we judge, it is useless for newspapers to get into a frenzy, and print bitter, sharp or eloquent diatribes. No good will come of a continued expenditure of ink, and genius, and emotion, in that manner. The people have an efficient remedy in their own hands. If they apply it, vigorously and intelligently, next winter will witness the passage of a proper Free Railroad Law, and a bill repealing the Repealing Act. If they will not resort to it, or, using it, do so in a listless and indifferent way, they must reconcile themselves to sitting down under the abuses of which they complain. This remedy is to discard political party arrangements for a season, and unite in electing to the Legislature, independent men of brains, honesty and courage. Thirty such men, acting in a body, outside of party lines, will be enough to control the organization of both branches of the Assembly next winter, and compel the needed legislation. It used to be said that "all roads lead to Rome." This is the only road that leads to freedom in railroad making in Pennsylvania. If the friends of that measure are prepared to take it, the way stands wider open than it will for several years to come. We have neither President, nor Congress, nor Governor, nor United States Senator to elect, nor yet a national political policy to establish or vindicate. Only a Supreme Judge, a Legislature, and the usual local officers are to be chosen. Here is the opportunity. We urge nothing. This is the people's cause, and it pertains to them to deal with it as they will. Talk that produces only another talk, envenomed leaders that breed only other editions of such, may gratify or inflame animosities, but they join no practical issue and bring nothing to adjudication. If the people will not move in this manner, or in some other that promises direct and good fruit, we elect to be counted out of acrimonious discussion.

## REMOVING THE CAPITOL.

A few years ago Philadelphia wanted to be aggrandized by again becoming the seat of government of this Commonwealth. The ambition was laudable, and being rich and increased in goods, she offered to pay munificently for the gratification of it by providing the requisite site and buildings. The proposition was received with favor by the people and press. Members of the Legislature were captivated with the idea of their successors exchanging the banks of the Susquehanna for those of the Schuylkill. A clear majority of both branches evidently favored the project. Owners of real estate, tavern keepers, and traders generally at Harrisburg became alarmed. Lobbyists, who had kept assignation houses for debauching legislation, through a period of ten or twenty years, had visions of a departed occupation, through fear that old trees would not take root in new soil. Measures were taken to stop the hegira; we do not say what measures, for we do not know, except by analogy and conjecture. At all events, a good many members experienced sudden conversion, which is always suspicious when it happens against legitimate argument and persuasion. The offer was not accepted.

This agitation had scarcely subsided, when it was found indispensable to enlarge the capitol. Sage reasons were assigned. Old stagers shook their heads; some intimating that if the building was bigger it could not so easily be spirited away; others, that it was needful to allow men who had contributed to keep the capitol in its place to indemnify themselves for their zeal out of the public treasury. The new building has cost several times as much as a private gentleman could have erected it for, had he desired it for his own use; and it is not done yet, by a good deal, we believe.

A few days ago, the proposition was renewed to remove the capitol to Philadelphia; we forget by whom, but have no doubt he is as honest as he is certainly sensible. We wish, with all our hearts, the change was made. But, then, we don't want the State let in for another addition to the old building. Our sympathies run out towards the tax-payers. Have a care what you do, lest the old experiment be repeated.

## DEATH OF GEN. JOSEPH MARKLE.

It is with no ordinary sorrow that we announce the death of another of Pennsylvania's venerable citizens, General JOSEPH MARKLE, who departed this life at his residence, near West Newton, yesterday morning at five o'clock.

The deceased was born in 1776, on the same farm upon which he died. He had for many years been regarded as a bright connecting link between our early history and the present. In the war of 1812 he commanded a company which he had recruited at his own expense, and which performed good service in behalf of our country in that unequal struggle with Great Britain. He was identified with the interests of the old Whig party, and in 1844 was its candidate for gubernatorial honors in this State. Many of our readers will remember how vigorously that campaign was conducted. It resulted in the election of FRANCIS R. SHUNK as Governor, over General MARKLE, by a bare majority of forty-five hundred. The deceased did not retire from active politics for some years after, and although possessing influence throughout the State, never again, we believe, permitted his name to be used as a candidate for office. He has ever been identified with the Union Republicans, and during the rebellion the Government had in him a firm friend and staunch supporter of all its acts to crush a wicked rebellion. In private life the deceased was universally esteemed, and has left a large circle of friends and acquaintances who will long cherish his name, and ever associate it with pleasing recollections.

◆

EELS are reconciled to be skinned through the delight it gives them to wriggle. At least, somebody says so. Not a few Southern editors give a sort of fiendish chuckle every time they find a grievance, real or imaginary, for which the national government, or any upholder thereof, can be held responsible—it gives them so much satisfaction to curse. The Memphis *Appeal* man is one of this sort. Running short of material, he invents an occasion to be savage, and improves it after this fashion:

> "It (the Bureau) is educating small Africans, to fit them to be the rulers of contumacious Anglo-Saxons. *Perhaps* the orthodox belief in an eternity of agonies in hell is an error. We hope it is not. If there was no such institution, humanity ought to petition for one, that there might be an *adequate* punishment for hypocritical Yankee school-marms."

Strange—isn't it? that white folks should boast of natural superiority, and yet be afraid the blacks will outstrip them in acquiring knowledge and dexterity in using it!

◆

GEN. SCHOFIELD's order assuming command of Virginia under the Military Government law, ought to assure the people of that Commonwealth that they are in no danger of being swallowed up. He tells them that the machinery of the existing civil administration will go in the regular way until superseded by another, proceeding from the loyal citizens, and that military power will not be used unless they create occasion for it. Doubtless the four other Departmental Commanders will fulfill their commissions in the same moderate and just spirit. If harshness shall be exercised it will be because the disloyal element makes it necessary to the public tranquility.

## NOTES FROM THE CAPITAL.

[Special Correspondence Pittsburgh Gazette.]

WASHINGTON, March 14th, 1867.

The new Congress presents no very marked features of difference from those of the Thirty-ninth. In the Senate some twenty new Senators have seats and there are some very distinguished gentlemen among them. The gentleman who perhaps attracts most attention in that number is Senator (late Governor) Morton, of Indiana. Of elegant presence, commanding figure and eloquent countenance—if you can pardon the phrase—he has already indicated what I believe was claimed for him long before he was elected to his present high place—a front position on the grand line of advance toward which the great party of progress is more and more pressing forward. It is to-day a matter of congratulation among all the true-hearted men of that august body that the potent voice of Mr. Morton is heard among the pioneers of progress in that body. What happy days, after all, we are living in; when only five short years are needed to replace Jesse D. Bright by a true and faithful soul like Morton. His present honors are but a fitting crown to the years of labor and self-sacrifice which marked the progress of the war with him.

And certainly we, as Pennsylvanians, may congratulate ourselves upon the great improvement in our own case. The advance from Mr. Cowan to Mr. Cameron is a very "*gradus ad parnassem*." It is to be regretted that we have to say of the late Senator, that to have been a friend of his when he was a Republican in the minority and needed a friend, was a sure passport to his disfavor in this new era. But what a long and speedy downfall!

"To what depth, from what height fallen!" From a Senator with the respect and regard of so many worthy men as made him that, to a rejected aspirant for position at the hands of a renegade President!

Mr. Cameron's speech at Harrisburg, defining his position as Senator, was eminently gratifying, and it is to be said that he is "fighting it out on that line." If he asks nothing for our friends (as he should not) of the present occupant of the White House, it is certain that no enemy to Republican ideas can get his endorsement. Heretofore not the smallest crumb of comfort was dispensed from the hands of Mr. Cowan except to such as worshipped the Grand Llama. We may well rejoice in the great and favorable change thus indicated. It is to be hoped that the loyal men of the whole State will rally cordially around Mr. Cameron and hold up his hands and aid him to be a true representative of the best thoughts and grandest aspirations of the great party of progress and of ideas.

Another stirring and most efficient new Senator is Roscoe Conkling, of New York, late of the House. He is one of the most indefatigable men of the day, and knows no such word as fail. He is yet a young man. He was one of the very first to read the bogus young Napoleon of 1861—George B. McClellan, then making his fancy campaigns up and down Pennsylvania Avenue. Mr. Conkling gave the very first note of warning as to this charlatan, and that too at a time when the great mass of men had run McClellan mad. The GAZETTE and he were together with regard to the man, even before the slaughter of Ball's Bluff, which was the immediate occasion of Conkling's speech. He is now in accord with the advanced republicans, and in this respect a great improvement upon Mr. Harris, his immediate predecessor. A man of ponderosity, respectability and deportment.

The only other specially notable man among the new Senators is Mr. Morrill, of Vermont, long an active member of the other House and chairman of the Ways and Means. He was a merchant before he was a M. C., and brings business tact and industrious habits with him from the Green Mountains. He looks eager, cautious, and study-worn. He is not an eloquent man, but has a hearty way of getting out his ideas, which, while it does not fascinate, convinces. He has at least the grace of earnestness—

——"And the heart
Sendeth a grace to every part."

No one ever doubted the honesty of Mr. Morrill, and the seat of the lamented Collamer can never be disgraced or dishonored by him.

The remaining new Senators have yet their spurs to win, while the public know of, they do not yet know them. An impartial "jury of the vicinage," including the people between the St. Croix and the Pacific, will in due time render a true verdict in every case.

Over this august Senatorial body presides the grand old Senator but now Vice President of the United States, Mr. Wade, of Ohio. For straight out, downright, upright, determined persistence in the right, as "God gives us to see the right," where is the superior to this hardy old veteran! If justice should find it necessary to place him in the Presidential chair, it will be a day to be marked with a white stone. How long and bravely that old man has stood in his place on that floor for the great principles of justice! How many a once proud name has gone down before the people while that old man has plodded sternly forward, turning neither to the right nor to the left!

And his being placed in the position he now occupies, reminds me that the day is past when the American people thought it was of small consequence who they should have for Vice President. Our experience with Vice Presidents has not been encouraging. Tyler, Fillmore—Johnson!

Not only the next President must be a man tried in the furnace, like Hon. E. M. Stanton, for example, (and what worthier name appears for any and all persons on the rolls of our country's best and truest), but also the next Vice-President. The name of Gen. Howard is more frequently mentioned in influential circles for the Vice-Presidency than that of any other man. This noble Christian patriot would reflect honor upon any station while borrowing none from any.

RADICAL.

### Our Next Supreme Judge.

Judge Veech has positively and peremptorily forbidden the use of his name in connection with the nomination for the Supreme Judgeship of Pennsylvania.

The only prominent man now, we believe, before the people of Western Pennsylvania for the position is the Hon. H. W. Williams, of Pittsburgh.

Of Judge Williams' qualifications it is unnecessary to say anything. He has been on the bench in Pittsburgh for the last quarter of a century, and the least that can be said of him is, that he has always given entire satisfaction. The only opposition to him comes from the members of the Pittsburgh bar, grounded upon the presumption that it will be almost impossible to fill his place.—*Uniontown Standard.*

## HABITUAL CONSTIPATION.

HOW TO EFFECT A CERTAIN AND PERMANENT CURE.—Some occupations of life predispose to Costiveness, especially those which allow but little exercise. Persons who contract this unfortunate habit of body, under such circumstances, might possibly be relieved by changing their sedentary employments for others of a more active kind; but this is by no means certain. Habitual constipation is a very obstinate disorder. All the ordinary so-called remedies invariably aggravate it. Nothing can be more injurious than the continued use of strong aperients. They at first irritate, and finally almost paralyze the bowels—rendering them so torpid that enormous doses of cathartic medicines have no effect upon them. A mild aperient, combined with a gentle stimulant, is the true remedy; and a combination in the happiest proportion, of these ingredients, is found in HOSTETTER'S STOMACH BITTERS. This famous Stomachic invigorates the whole intestinal canal, while quietly removing from its convolutions all impediments to a free passage through them. No mere purgative has this double operation. No ordinary stimulant effects the desired object. Cases of Constipation abandoned as hopeless by distinguished medical men have been cured in a few weeks by the Bitters. To those who have tried all the medicines of the dispensary in vain, we say, try this irresistible stimulant and aperient. There is no sufficient reason why Constipation should be the consequence of sedentary habits. HOSTETTER'S BITTERS, by supplying the vigor which would otherwise be derived from exercise, will in all cases enable the system to perform its excretory functions regularly and healthfully.

## THE INDIANS AND THE WHITE PINE.

Although long known to the aborigines of America, Dr. George W. Swett, of Boston, has brought into shape for convenient use, a most valuable preparation called POLAND'S WHITE PINE COMPOUND, which for a number of years has given great satisfaction in the cure of all those ailments dependent on an inflamed or irritated condition of the mucous membranes of the animal organism. *For gravel, diabetes, dropsy, chronic bronchitis, nasal catarrh, constipation,* when depending on a debilitated state of the intestines, it is one of the most valuable discoveries recently added to pharmaceutical medicine. It is likewise a most valuable compound for diseases of the kidneys and bladder generally, as any one can satisfy himself upon a single trial. Every one knows the healing virtue of the white pine for sores and ulcers, but Dr. Swett has gone to work and prepared from the sweet inside bark of that valuable tree a compound that will meet every indication where the pine would be valuable.

It is confidently recommended for the following ailments:

Diseases in young or middle aged people;
Diabetes in old people;
Stoppage of the Urine;
The same difficulty in children during the night;
Gravel, Kidney Trouble in old people;
Ulcerated Kidneys, Ulcerated Bladder;
Discharge of mucus or pus, or blood from the bladder;
Bright's Disease of the Kidneys;
Pain in the Kidneys or Small of the Back;
Pain in the Bladder, Heat and Scalding;

A PRINTING OFFICE FOR SALE.—To any good printer who has the ability and inclination to purchase and edit a weekly newspaper—Republican in politics—a rare opportunity is hereby offered.

Being desirous to engage in another business—no more profitable, but more congenial to my personal tastes—I offer for sale the office of the "*Fairmont Vedette*," a first-class county paper with a first-rate reputation throughout the State. The "Vedette" is a 36 columned paper and has a large subscription list of prompt paying subscribers. As I have adopted the cash system, there are no patrons in arrears. The office contains two presses, and is well supplied with type and all the appliances requisite for publishing a weekly paper and meeting all demands for Job Work. My receipts for the past year, on account of subscription, advertising and job work, have been nearly $3,000; while the cost of paper and composition has been about $1,500. Not being a printer myself, I am compelled to employ one more compositor than would be necessary for one who could devote a portion of his time to type setting. I employ three hands. About half of the time of one is required for Job Work. An editor who can set type could dispense with one hand, and thus make more money than I have done.

The "Vedette" is the only paper in Marion county, which always gives a Republican majority of between three and four hundred. Fairmont, the county seat, contains about 1,000 inhabitants, and is distinguishable for its healthfulness and the intelligence and sociality of its citizens. It is situated on the Baltimore and Ohio Railroad and Monongahela River.

I will take one thousand dollars ($1,000) in cash for the establishment, which is not more than half what it is actually worth.

Persons desirous to purchase are requested to address,
J. N. BOYD,
mh16:v Fairmont, West Virginia.

PITTSBURGH
LIGHTNING ROD WORKS.
MUNSON'S COPPER TUBULAR
LIGHTNING RODS.
With Spring Flanges.

This Rod has the power to carry off as much electricity as twenty Common iron rods; in other words is equal to a solid bar of iron thirty inches in circumference. It does not rust; it cannot get out of order. It has received the first premiums at very many State and District Fairs and Institutes. It was never beaten in any contest. It has been recommended by several hundred Professors in the best Schools and Colleges in the United States, as the best Rod ever invented. In this list we may name Philotus Dean, Professor of Natural sciences, Pittsburgh High School; George Woods, President Western University of Pennsylvania, and I. C. Pershing, President Pittsburgh Female College.

Among the hundreds of buildings upon which this Rod was erected within the past year in this vicinity we may mention the Locomotive Works; Banner Cotton Mill; Allegheny Flouring Mills; First Presbyterian Church of Allegheny; Second Ward School House, Pittsburgh; City Poor House, Pittsburgh; St. Bridget's Church, Pittsburgh, &c., &c. In the surrounding country many of these Rods have been erected on residences or public buildings. It may be examined on the Lutheran Church at Johnstown; on the Disciples Church at New Castle; on Dr. Reed's residence, Hickory; on residences of Esquire Jancey, Lawrenceville; S. M. Fulton, McKeesport; Wm. Ewing, Frankfort Springs; S. P. & J. N. Large, Elizabethtown; Col. Wm. Miller, Port Perry; P. Baker, Neville Island; J. Lockhart, Canonsburg; L. W. Lewis, Sharpsburg; J. F. Muller, Freedom; Friend Buxton, Bakerstown, &c., &c., &c. This Rod is adopted by all who want Lightning Rods wherever it is introduced, and it is an experience of ten years we have never known an instance of damage to a building protected by it, while many instances occur every year of damage to buildings upon which iron rods have been erected; so noticeable has this fact become in communities where attention is called to the subject, that we are almost daily called on to take down the iron rods and erect the Munson Copper Rod.

Price, 30 cents per foot and $3 for points on each rod. Our workmen will go to any part of the country without extra charge.

## THE BUTLER COUNTY HOMICIDE.

### Trial of John B. Adlington for the Murder of Sidney B. Cunningham and James H. Teeples, at Portersville.

WEDNESDAY AFTERNOON SESSION.

The prisoner was brought into Court, the jury called over, and answered to their names.

*Wm. M. Kirker*, resumed—I went into the sitting room and found Teeple lying in the corner of the room. He said, "Oh, my God, Kirker, I am badly hurt." He asked me if I was hurt; I told him I had been struck in the eye; he asked me if I knew where Cunningham was; I told him I did not; I then started to hunt for him and found him in the hall; just as I found him John Kenedy came in; I spoke to Cunningham; he was sitting down with his head down on his breast and his legs stretched; I laid my hand on his head and said: "Cunningham, what is the matter?" he did not answer. Kenedy said that man was dying; Kenedy said I had better go for the doctor; think I saw Frederick Bowder in the room; he appeared to be very much excited; he seemed to be acting like a man who was excited, crazy, wild.

Prosecution proposed to ask the witness what was said by any one in the room where the bodies of Cunningham and Teeple were lying, just before the doctor came, and at the examination.

Objected to by defendant as being too general in terms—not specifying whether they applied to Cunningham, Teeple or both, nor were they dying declarations.

The Court overruled the objection, and noted an exception.

Mr. Kirker resumed.—As I was going out through the hall I heard Teeple moaning, and I heard some one mocking him; and say "dam you man, you aint hurt as bad as you ought to be hurt; I dont know who said this; the sound appeared to come from the hall; it might have been from the room; it was behind me, I did not recognize the voice. On my oath I would not say who it was, there were a number of persons there that night with whom I was not acquainted, I would not say positively who it was that made use of those remarks, I though then that it sounded like Fred Bowder's voice; I thought Bowder was drunk, under the influence of whiskey; think I saw him in the sitting room as I passed through; I remained there until the jury was impanneled; saw the wounds examined by the doctor; was there when Cunningham died; I saw the defendant in the bar room after Cunningham died; think he took a coat and laid down on the counter; I heard him say that he wished he had stayed at home that night; he gave no reason for saying so; he did not remain there but a short time; don't know where he went afterwards; I saw no one during the fight strike him; did not see him strike any one; I was acquainted with Teeple and Cunningham; they told me they came from New Castle.

*Cross-Examined*—I was acquainted with Cunningham about a year, and with Teeple about a year and a half. I reside in Wirtemburg, Lawrence county. We all three worked at Oil Works one month or more; I was friendly with them, working by the day; did not board at the same house; I have a family; they have been at my house; Mr. Cunningham was there several times during the winter; Wirtemburg is said to be eight miles from Portersville; I was engaged by John Oliver as a musician; was fiddling when the row commenced; don't know what time of night it was; it was late; gave my fiddle to Miss Campbell; ascertained that was her name since that time; I saw her again that evening; Bowder's blows stunned me for some time; blinded for about a minute; I said at different times, that I had not come to the party; all that I had talked to expressed the same sentiments. I felt the effects of the stroke sensibly, but could not to walk. The effect of the injury might have sensibly affected my mind—confused it; I was in the North room two or three minutes; I did not bathe my eye; I was going for water when I heard the cry from the sitting room, and turned to go back; don't know if Mrs. Oliver was in the kitchen, but think she was, when I went for water; could not state certainly; I did not hear the person that passed me say, "damn;" did not hear any one say "get out of the way, damn you, where are the knives!" After he passed me he made use of the words I alluded to in the forenoon; I halted and and looked back, then went into the dancing room; I was about the centre of the room when Oliver came out of the sitting room; there was a great crowd, twenty or more, around the door of the sitting room, and John Oliver was among them; they obstructed my passage to the sitting room; I halted when I saw Oliver covered with blood; there was quite a crowd around; seemed to be staring at Oliver; I think I saw the defendant in that crowd; I believe I saw him there; I did not observe him when Oliver first came out of the door, but was with him when they advanced into the room about ten feet.

Defendant proposed to ask the witness if the defendant was in the crowd, and moving in it, as part of it. The Court permitted the question to be asked.

Witness resumed.—He was not in the crowd at first, but I saw him afterwards with the crowd around Oliver moving toward the kitchen, I was not in the cellar after the fight; I was in the cellar about half past seven or eight o'clock in the evening; it has been stated here that I was down after the fight, but that is a mistake.

Direct.—I think I saw defendant at the side of Oliver; don't know that he had hold of him; there might have been twenty persons around Oliver; some of them were ladies; when the defendant jostled me out of the way, I did not look around—did not look when he spoke: he went toward the end of the kitchen.

*Mrs. Melissa Oliver*, sworn—John P. Oliver is my husband; there was a dance at our house on the night of the 24th of December last; I did not see or hear anything of the first fuss; I was in the kitchen working about the stove, and heard a rush for the sitting room; I went to the door of the kitchen and the north room; there were a number of ladies there; the little girl wished to get her father out; James Anderson came out and grabbed up the poker; Kirker came out and gave his fiddle to some one; Kirker came back with his eye hurt; I heard Mrs. Adlington scream, "Oh, John, dont, dont, Oh, John, dont let him;" she was about two feet from me; she came towards the north room door; she had both hands thrown up; don't know that she was addressing any one; there was a great crowd; the ladies mostly passed off up stairs; Mrs. Adlington started to go up stairs; I stood there a moment and then started back into to kitchen; there was a crowd around the sitting room door; while I stood in the kitchen door Salley Campbell came to me and said they wanted the knives; I went with her into the dining room and picked up a carving knife; she went towards the other end of the table as though she would pick up the other knife; I carried the knife and concealed it under the cradle bed; I went out through the porch to the hall door when Adlington passed me just on the porch outside the hall door; I asked if he could tell what they were fighting about; he said he could not, they were all fighting through other; I did not notice him pass back; he could have gone off the porch into the barnyard; three steps down into the garden; the porch is four or five feet from the ground; he appeared to be going toward the end of the porch leading to the barnyard; he was walking fast; he did not stop to answer my inquiry; I went back to the door between the kitchen and dancing room; Miss Newton said my husband and the stranger were fighting; I started to go into the sitting room and got a step or two into the north room when my husband came out; I asked him if he was much hurt; he said not; I don't know that any one had hold of him; I did not see the defendant with him at that time; went to the kitchen and got water; bathed his head; Jones bathed him; Fred. Bowder was in the kitchen and Adlington was trying to pacify him; Bowder was swearing that he would go back to fight, and Adlington was pleading with him to stay where he was, that he (Adlington) was his friend; this was the first time I saw him after I met him on the porch; it was not more than three or four minutes from the time I saw him on the porch till I saw him with Bowder in the kitchen; I did not see where Adlington went; some one said my husband was not badly hurt; I then said if some one would carry my child, I would go home to my father's; James Amberson carried the baby; I left the baby with mother, and started back; I went out of the house through the north room door into the street; came back through the same door; I noticed W. Pringle there; there were several around the door; I pushed through the crowd; I asked after I came back, where my husband was; they told me he was doing well up stairs; Calvin Weller went up stairs with me; have no recollection of seeing any one in the hall; I found my husband up stairs, and Mrs. Adlington washing his head and neck; there were others present; Adlington was not there till after my husband had his clean shirt on, and was put to bed; Adlington came in at the door; there is but one door; there are two pair of stairs into the room above that connected with the hall, out of which the door opens into our room; my husband, Mr. Adlington my sister, and a little girl nursing for me, were all that were in the room at the time I went in; there was some one holding the lamp; the first I noticed of Adlington, was that he came over to the bed, and said there ought to be a couple of stitches in the wound in Oliver's head; they told me the doctor had been there; Mr. Adlington was in and out several times during the night; I don't know who Mrs. Adlington meant when she called out "John, John, don't let him;" think she meant my husband not to let Adlington do something; I think the sitting-room door was open all the time; I don't think Mrs. Adlington could have seen into the sitting-room from her position; the door was open all the time of the fight; there was a crowd around the door of the sitting-room; I can't tell whether Mrs. Adlington came from the door of the sitting room walking very fast. She was very pale, as though she was going to cry. Up stairs the defendant called Mrs. Adlington and me aside, and asked me if I knew who sent those men here. I told him I did not. I don't know why he called us aside. He said it was Falls that sent them. I knew who he had reference to. I asked him how he knew, and he said "he knew." He said they had got just what they deserved for coming there and raising a fight. Some one said one of the men could not live. He said "he did'nt care a d—n."

*Cross-examined*—Mother was not up when I went there with the baby; my husband was taken up stairs while I was away; I think I was not gone more than five minutes; I learned the Doctor had been there, and was then engaged with the men below; I saw one body stretched in the hall, with some one leaning over him, and another holding the light; I did not recognize them; I heard no person in the kitchen say a Doctor should be sent for; Calvin Weller was in the kitchen at this time; Adlington was there with Fred Bowder; there was quite a crowd following my husband through the dancing room; two men were beside him, but I could not recognize them; think they were both men; think my sister was behind him. I could not name one who was with Oliver; Kirker was inside the kitchen door when he said he had been struck; he had been in the sitting room but a minute or two; I asked him what the trouble was; he said he could not tell me; he said the first thing he knew some one struck him. Did not see my husband after the fight commenced, until I saw him come out of the room bleeding. Sarah Campbell asked about the knives after I came off the porch the first time. I did not notice William Kirker by the fire place; I did not notice him in the kitchen at the time the knives were spoken of; I did not see Adlington when I was hiding the rifle in the cradle. Afterwards I went on to the porch toward the hall door, and met Adlington. He must have come out of the dining room through the hall to the porch, or through the kitchen. I did not stay on the porch more than a minute before I went back I suppose I was excited; I did not feel so at the time. It is four or five yards from the kitchen door to the hall door on the porch. I dont remember anything that occurred from the time I hid the rifle till I met Adlington on the porch; it was a short time; I could not go fast and carry my baby; it was in my arms; my sister was the last person I inquired of as to the disturbance in the sitting-room; I did not notice Kirker after I inquired of him about the fight; there was a great crowd around the door; I noticed my sister and Miss Shaffer in the crowd; did not recognise the men; did not see Bowder brought out of the room; the first time I saw Bowder was after the fight.

By the Court—James Newton is my father. It is about as far as from the Court House to Jack's Hotel, as it is from my father's to our house.

*James Amberson*, sworn—I live in Youngstown, Ohio. I was at John Oliver's on the night this difficulty occurred; I went there about dark; the first I saw of the fight was Fred Bowder on the floor and Cunningham striking him; I was on the right hand side of the dancing room door; heard loud talk in the sitting room and looked in, where I saw Cunningham hit Bowder two or three times; went to the kitchen to see if I could see Bowder's brother, as I passed the stove I picked up the poker and went through the north room into the sitting room; saw Kirker lift Bowder up, and the latter struck him; next saw Cunningham knock John Oliver down; I drawed the poker to strike Cunningham; James Gibson caught the poker and pulled it out of my hand; the next thing, I saw Oliver up fighting a man in the corner of the room; saw Lafayette Shaffer striking at the man Oliver was fighting; don't know whether he hit him; he came out before the grate—that is, the man they were fighting with—and said "if they were any men at all, to come one at a time;" Oliver followed him up; they got him down on his knees; Oliver was holding him with one hand and hitting him with the other. I saw the defendant pick up a chair and hit Oliver on the head; I thought Teeple was on his knees; Oliver had him by the wrist; he was about half bent over him; he was standing at Teeples' side; couldn't tell which wrist he held; he was hitting him in the face; Adlington was standing at Oliver's back when he picked up the chair with both hands; the corner of the seat of the chair struck Oliver on the head; it was a pretty solid blow; I did not know at whom he aimed; he drew the chair again to strike, and I caught it; told him he had struck Oliver. He told me to let go the chair; Jas. Marshall caught hold and helped me take the chair from Adlington. Oliver then let go the man he was fighting; he fell on the floor with his head half way along the door of the hall, (that is across it); Adlington kicked the man twice in the face. I then pushed him away from the man into the hall. He came up and kicked at the man again; but I don't know whether he hit him or not. He hit him with the heel of his boot the first time he kicked. He said nothing to me, nor I to him; there was a big crowd around; could not say whether he fell down or Oliver knocked him down; he lay there and I saw him make no effort to get up. I suppose Oliver gave him two or three blows; I did not see Teeple make any resistance. It was rather dark in the room, and I did not see Teeple try to get his hand loose; saw Adlington about a minute after the chair was taken from him, kick Teeple in the face. I next saw Cunningham after the fight was over, lying on the floor in the sitting room, and after the doctor had come—after they had carried him into the room; I was crowded back by the crowd after the poker was taken from me, so that I could not see those fighting; there were in the room at that time James Gibson, John L. Jones, and others; Cunningham was about three feet from the north room door; there were different ones in the room.

Court adjourned to meet at 9 A. M. to-morrow.

(FIRST SESSION.)

## SUPPLEMENTARY RECONSTRUCTION

## The Bill Further Discussed.

## NEW YORK CUSTOM HOUSE MATTER.

## Collector Smythe and the President's Daughters.

WASHINGTON, March 15, 1867.

### SENATE.

THE WHISKY RULE.

The concurrent resolution to amend one of the joint rules prohibiting the sale or introduction of malt or spirituous liquors in the Capitol building was adopted.

FRICTION MATCHES ON STEAMBOATS.

Mr. CHANDLER reported, from the Committee on Commerce, to amend the ninth section of the act to further protect the lives of passengers on steamboats, &c., so as to exempt steamboats from being compelled to carry friction matches in an iron safe. Passed.

THE TREASURY IRREGULARITIES.

Mr. HENDERSON asked for a committee to investigate the conduct of the printing bureau of the Treasury Department, to consist of five instead of three members.

Mr. SHERMAN spoke in favor a joint committee. He was authorized to say that there had been no duplication of United States bonds. In all cases of presumed duplication nothing was discovered but erroneous stamping, some numbers having been placed to two bonds. The amount thus erroneously stamped was $16,000.

Pending the consideration of the motion, the morning hour expired.

THE UNION PACIFIC RAILROAD.

Mr. POMEROY introduced a bill to secure the speedy construction of the Pacific Railroad, Southern branch, and telegraph line, and authorizing the Secretary of the Treasury to guarantee the bonds of the Co., &c., being the bill of the last session revised.

Mr. POMEROY introduced the bill of last session granting lands to aid in the construction of a railroad and telegraph line from Lawrence, Kansas, to the boundary line between the United States and Mexico, in the direction of Guaymas. Referred to the Committee on the Pacific Railroad.

SALE OF VESSELS TO OTHER GOVERNMENTS.

Mr. MORGAN introduced a bill providing that nothing contained in the acts for the preservation of the neutral relations of the United States be construed to render it illegal to sell or charter any vessel built within the United States and purchased from the United States to any Government then at peace with the United States or to any subject thereof, though such vessel be prepared for war, provided such sale or charter be a commercial transaction and there be no intent on the part of the purchaser to participate in any hostile act. It provides that all penalties incurred under the acts referred to shall be disposed of in accordance with the act regulating the disposition of penalties incurred under the laws relating to customs, approved February 28th, 1867. Referred to the Committee on Foreign Relations.

CLAIMS OF LOYAL TENNESSEEANS.

Mr. PATTERSON introduced a resolution instructing the Committee on Claims to inquire into the expediency of paying the loyal people of Tennessee for commissary and quartermaster stores taken and used by the federal army, in that State, during the late war, and report a bill providing for the appointment of a committee of three gentlemen, one of whom shall be learned in the law, to investigate such claims and give vouchers for the same when found correct.

The resolution was agreed to, but Mr. EDMUNDS subsequently offered a motion to reconsider for the purpose of modification.

INDIANA CLAIMS.

Mr. MORTON offered a joint resolution to pay Indiana for quartermaster and commissary stores furnished to the militia of that State when called out to repel invasion. Referred to the Military Committee.

SUPPLEMENTARY RECONSTRUCTION BILL.

The reconstruction bill was taken up. The question was on Mr. Drake's amendment, which was modified by the mover so as to read that the constitutions of the States referred to shall provide that all voting for State, county and municipal officers, shall be by ballot. The amendment was disagreed to.

Mr. FESSENDEN moved an amendment, the effect of which he explained yesterday to be that the conventions to frame constitutions should be called only upon a legal expression in favor of it being transmitted from the Provisional Government to the Commanding General. He moved to strike from the first section the following words: "That before the first day of September, 1867, the Commanding General in each district defined by an act to provide for the more efficient government of the rebel States, approved March 2d, 1867, shall cause registration, &c.;" and insert in lieu thereof the following: "That before the convention shall be holden for the purpose of framing a State Constitution, under and by virtue of the act to provide for the more efficient government of the rebel States, approved March 2d, 1867, the Commanding General in each District defined in said act shall cause a registration, &c.;" also, to strike from the second section the following words: "That after the completion of the registration hereby provided for in any State, at such time and places therein as the Commanding General shall appoint and direct, of which at least thirty days' public notice shall be given, for the purpose of establishing a constitution and civil government for each State loyal to the Union," and insert in lieu thereof a provision, "that after the completion of the registration hereby provided for in any State, the Commanding General shall furnish a certified copy thereof to the Provisional Governor of the State for which the same was made, and whenever the Provisional Government of said State shall, by loyal enactment provide, a convention shall be called for the purpose of forming a constitution and civil government, and shall furnish a certified copy thereof to the Commanding General. He shall direct that a convention shall be held and shall appoint a time and place for holding it."

This gave rise to a discussion which took a wide range, and was generally participated in, lasting from one to four o'clock, when a vote was taken on the first (Mr. Fessenden's) amendment, which was disagreed to. Yeas 14, nays 32.

Mr. FESSENDEN said: Regarding this as a test vote, and his second amendment being dependent on the first, he should withdraw it.

Mr. BUCKALEW moved to go into Executive session.

Mr. TRUMBULL hoped not. He hoped the Senators in favor of this bill would continue it until passed. If it was carried over from day to day, it was hard to tell when a result will be reached. The debate of yesterday has been repeated to-day, and would be to-morrow, if the bill was kept before the Senate. If one amendment each day was to be offered and voted on, with such amendments as were understood ready to be offered, he could not tell when the bill would be passed.

Mr. SHERMAN interrupted the discussion to offer a joint resolution to remove the disability to hold office from Robert W. Patton, of Alabama, and Joseph E. Brown, of Georgia, which was referred to the Judiciary Committee.

The Senate went into executive session; after which the resolution for a recess was rescinded and the Senate adjourned.

### HOUSE OF REPRESENTATIVES.

NEW YORK CUSTOM HOUSE CORRUPTION.

Mr. HURLBURT offered a resolution requesting the Speaker to appoint a Committee on Public Expenditure, and such Committee take into consideration the report of the Committee of the last House on the subject of the New York Custom House, and report what action, if any, is advisable in the premises.

Mr. HURLBURT replied at some length to Collector Smythe's card, declaring, in the course of his remarks, that the New York Custom House was, under Smythe's administration, reeking with corruption in reference to the bonded warehouse business. A more flagitious, improper, disreputable and disgraceful transaction than that shown in the testimony had never been made public. He also declared the evidence showed that while Mr. Smythe took an oath every month that he received nothing from cartage, &c., he actually did receive every month $250 from that source, which money was handed to his Secretary, who kept it until the monthly oath had been taken by the Collector, and then paid it over by checks or otherwise. He would never forget the indignation he felt when a witness testified that Mr. Smythe had said to him, "I am d——d sorry that I ever undertook to carry the President's daughters." Mr. Smythe, to be sure, denied saying so, but the witness said to him, "I do not know what you thought, I do not know what occasion you had to say so, but I do know that you used these very words." Referring to the name of Mrs. Perry, he said she was no myth. Her veritable presence in the Executive chamber was proved more than once, and soft low words there spoken to her. It was in proof she was to have shared one-third of the profits of the general order of the business, and one of the witnesses had told him after he left the stand that Mrs. Perry had a written agreement to that effect, and that the President of the United States had read that agreement. He characterized Mr. Smythe as a vampire, sucking out the life blood of the commerce of New York, hampering commerce and making it subordinate to his own personal aggrandizement and to political objects.

No action was taken.

PROTESTANT CHURCH AT ROME.

The SPEAKER presented a message from the President, with a letter from the Secretary of State, transmitting an additional report from Minister King at Rome, dated February 13th, on the subject of the reported removal of the American Protestant Church from Rome. Referred to the Committee on Foreign Affairs.

INSURANCE AND MILITARY AFFAIRS.

Mr. ELDRIDGE, on leave, introduced a bill for the creation of a National Bureau of Insurance. Referred to the Committee on the Judiciary.

Mr. LOGAN offered a resolution for the immediate appointment of a Committee on Military Affairs, and that it be authorized to sit during the recess for the purpose of enquiring into the manner of procuring heavy ordinance for the United States service, the disbursements relating thereto, quality of rifled and smooth bore guns heretofore introduced and hereafter to be introduced, with power to send for persons and papers and to employ clerks, and directing the Secretary of War to cause experiments to be made, &c.

After some debate the resolution was postponed till December next. Yeas 69, nays 56. This vote is regarded as an indication of the temper of the House on adjournment.

Mr. LOGAN then offered a resolution requesting the President to inform the House as to the amount paid by the government since April, 1861, for cannon, ordnance, projectiles and small arms by the War and Navy Departments, as to contracts for same, and whether the officers of the government are pecuniarily interested in improvements, &c.

Mr. BANKS then offered Mr. Logan's first resolution, modified so as to provide for the appointment of a military committee temporarily.

Mr. SCHOFIELD moved to lay the resolution on the table. Yeas, 63; nays, 56.

BILL APPROVED.

The SPEAKER laid before the House a message from the President, announcing that he approved and signed the House bill making appropriations for the expenses of a Commissioner to the Indian country.

COIN OF RICHMOND BANKS.

Mr. VAN WYCK, from the Committee on Retrenchment, to which was referred a resolution of inquiry in reference to the coin of Richmond banks, now on special deposit in the treasury, reported a Joint Resolution directing the treasurer to sell the coin and bullion, about $100,000, and place the amount in the treasury, and allow the claimants to assert their rights to the same in the Court of Claims.

On motion of Mr. WILSON, of Iowa, the latter clause was struck out.

Mr. COOK moved that instead of coin and bullion being sold, it be paid into the treasury. Agreed to.

The Joint Resolution as amended was then passed.

NEW YORK CUSTOM HOUSE AGAIN.

Mr. FERNANDO WOOD made a speech, to the effect that whether criminal or not, Collector Smythe had not the capacity or discretion to fill a place of such magnitude and importance.

Mr. Hurlburt's resolution was adopted.

Mr. HURLBURT'S resolution was adopted.

Mr. SCHENCK offered a resolution that the Committee on Public Expenditure inquire into the conduct of Henry A. Smythe, Collector at New York, in connection with the administration of this office. The resolution was adopted.

House adjourned.

### Oyer and Terminer, &c.

Before Hon. James P. Sterrett.

This Court met at nine o'clock on Friday morning, and proceeded with jury trials.

A COLORED CASE.

George Waters and Emma Clark were indicted for the larceny of three petticoats, one chemise and other articles of female wearing apparel, the goods and property of Gabriel Simpson, the prosecutor. Emma Clark, who is a white girl, put in a plea of guilty. Waters, who plead not guilty, is saddle-colored, and Simpson, the prosecutor, black as tar. Josiah Cohen, Esq., was counsel for the prosecution, and M. Swartzwelder, Esq., appeared for the defense.

Gabriel testified on behalf of the Commonwealth that the clothing was the property of his deceased wife, and that it was stolen from his house; that the defendants had been living at his house, and that after they left, about three weeks after Christmas, he missed the articles, and some time subsequently found them at the house of a Mrs. Robinson. Being asked on cross-examination how he found out his loss he said "I got into de trunk." He was asked whether he got into it bodily, feet and all. Gabe said, "I went fru it; dem tings was on de top of de trunk; don't mean de top of de trunk outside, but de top of de trunk inside." Other witnesses were called who testified to the finding of the goods at Mrs. Robinson's in the possession of defendants.

On part of the defense Emma Clark, who had pleaded guilty, was offered as a witness. She was objected to by Mr. Cohen, as she was the wife of George Waters, on trial, and to prove this fact Gabe was recalled. He was asked whether their general reputation was that they were married and that they cohabited together as man and wife. Gabe said: "Dat was de general taut of de neighborhood." Counsel for defense asked what he understood by cohabitation? Gabe said: "Cohab, cohabit, cohabita-shun mean dat dey were married togeder." By general reputation he meant "what I knowed mysef; Emma told me dat she war married."

Mr. Cohen said he had been a school teacher and would put his questions on the inductive principle. He asked Gabe: If one knew a thing, and all didn't know it, would that be general? Gabe said what he meant by general reputation was "when de touts was drawn togeder into a pint." Mr. Cohen asked whether defendants did not live clandestinely together. Gabe said: "Yes sah! very *clam*destinely. Being asked by Mr. Swartzwelder what he understood by clamdestinely, Gabe said he "meant by dat dey were married—dat people when dey were married always went to bed *clam*destinely." The Court sustained the objection.

The case going to the jury, they found a verdict of guilty. A motion for a new trial was entered.

THEATER MANAGER ON THE STAND.

John Kelly and a boy named Dunn were charged with larceny. Dunn was not present and Kelly alone was on trial. He is fourteen or fifteen years of age, and the indictment charged him in one count with the larceny of nine tickets of the value of 25 cents each, and in another with the larceny of nine pieces of pasteboard of the value of ten cents. Fred Aims, late Manager of the Varieties Theater, was the prosecutor, and on cross-examination was asked what was the value of the tickets. He said they entitled the bearer to admission to the theatre and he placed the value stated upon them. There were "dead heads" admitted to the show, but defendant was not a "dead head;" he had attended the Varieties: could not say that boys were acute critics; they sat in the gallery, eat peanuts, munched apples, "catcalled," &c.; he described the character of his show; had given a caricature of the "Black Crook," in which no women had appeared; had ballet dancers; could not say that they attracted most by the scantity of the clothing they wore; could not say that boys were more properly influenced in attending prayer meetings than his show. The jury found a verdict of not guilty.

STOLE A SHAWL.

Mary Gavin was convicted of the larceny of a shawl, and was sentenced to jail for fifteen days.

VERDICT OF GUILTY.

In the case of Andrew Leech, indicted for an assault and battery upon John H. Louderbach, the jury found a verdict of guilty. Sentence deferred.

JURY DISCHARGED.

The jury in attendance for the past two weeks were finally discharged at noon yesterday, in order to enable those from the country districts to exercise the right of suffrage at the local elections. A new jury will be in attendance on Monday.

### Stole Barrels.

On the 4th instant Mr. William H. Graham, of the firm of Graham & Spangler, oil dealers, on St. Clair street, made information before Alderman Taylor, charging William Tate with the larceny of six empty refined oil barrels, and stating that the stolen barrels were on the premises of the accused, at No. 525 Penn street. On the 13th instant James McKenna, of the firm of McKenna & Rogers, oil dealers, on Liberty street, charged the same party with stealing eight empty barrels. Warrants were issued, and yesterday the accused was arrested by officer Bell and committed to jail for a hearing on Monday. The first mentioned barrels were recovered. Those belonging to McKenna & Rogers he had sold back to that firm after stealing them.

**Disorderly at Home.**—On Thursday afternoon, the wife of John Lanhart, living in North Alley, Allegheny, requested that her husband be arrested, as he was acting in the most disorderly manner at home. Officers Campbell and Dill went after and arrested him, not without serious resistance. He had knocked over the stove and broken up the furniture and enacted various other eccentricities. By the aid of the "nippers" he was got to the lock-up, and yesterday morning was fined three dollars and costs. Before he had been in the lock-up an hour his wife was pleading for his release.

**Runaway.**—A pair of horses attached to a heavy wagon took fright yesterday afternoon on Ohio Street, Allegheny, and ran furiously towards the Market House. A woman crossing the street at Federal street, had a very narrow escape from being run over. At the corner of Ohio and Federal streets the wagon struck a post and the horses became detached. They ran up Federal street and were finally captured, one of them having jumped upon a wagon which stood in his way. The wagon was somewhat broken.

**A Determined Belligerent** was Edward Kelly this morning very early. Edward was on Grant street, at the corner of First, very drunk and disorderly. Lieut. Campbell could not persuade him to go quietly home, so he proceeded to arrest him. Kelly resisted to such purpose that it took several men to effect the arrest, and then it was done at the expense of one or two badly torn coats.

## FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, March 15, 1867. }

The following are the New York stock quotations for to-day: Gold, 134¾; 1881 bonds, 109⅝; Five Twenties, old, 109¾; Five Twenties, '65, 107⅝; do new, 106⅜; Seven Thirties, 105¾. Michigan Southern Railroad, 71¼; Cleveland and Pittsburgh, 82¾; Pittsburgh, Fort Wayne & Chicago, 96¼; Erie, 59¾; Chicago and Northwestern, 35⅝; do preferred, 63¼; New York Central, 103; Chicago and Rock Island, 96.

—The amendments to the internal revenue law take effect on and after March 2, 1867, except the clause allowing extra compensation to assessors, which is to apply to the whole month of March, and therefore takes effect on the 1st instant. The reduction in taxes begins from the second of March, and all exemptions date from the morning of that day. This is as we understand it, and coincides, we believe, with the views of the department at Washington. The income tax now to be returned upon the income of last year will be paid according to the new law. One thousand dollars thus returned is exempt, and all above that pays a uniform rate of five per cent. The returns must now be made in March instead of May, as under the old law.

—Notwithstanding the seeming absurdity of the proposition, it is stated that the bills of a broken National Bank now command a premium, and the reason given for this apparent anomaly is said by the Boston *Advertiser* to be found in the fact that the limit of circulation allowed by law has been reached without giving all the banks in the country an amount of circulation corresponding to their credit. This paper says:

"A bank, however, can obtain notes from the Government on surrendering an equivalent amount of currency, which is not to be reissued. As soon, therefore, as a bank breaks, its bills are sought after by other banks, which wish to enlarge their circulation, and the demand arising from this cause is sufficient to put them at a premium, which has sometimes ranged as high as one per cent. A very brief period of circulation is enough to repay the premium to the purchasing bank, and as the new bills rarely return to the bank issuing them it very soon realizes a handsome profit on its investment."

—The failure of Orray Taft & Co., of Providence, R. I., is announced. Mr. Orray Taft, the senior, died some time since, leaving a property valued at one and a half million of dollars. The business of manufacturing cotton goods, &c., has been since continued in the same firm name of Edward P. and Cyrus Taft, who are said to have speculated largely in print cloths and other goods. They have also commenced the erection of a large cotton mill and houses for occupation of operatives. Their indebtedness is said to be one and a half million of dollars. Creditors to the amount of three-fourths to seven-eighths of the whole are said to hold securities, but if they were given in view of insolvency, the transfer, under the bankrupt law is void. The firm has made an assignment.

### PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, March 15, 1867. }

The general markets are steady and moderately active, while so far as values are concerned, there are no changes worthy of notice.

GRAIN—Wheat is in very limited supply and firm, though the demand is light; No. 1 Spring may be quoted firm at $2,60, and prime Winter Red at $2,80 to $2,85. Rye is in steady demand at $1,30. Sale of 1 car Oats at 50—small sales at 53 to 55. Barley is in demand, and No. Spring sells readily at $1. Corn is quiet and dull but unchanged.

FLOUR—Is firm, with a fair local demand though unchanged. We continue to quote at $12 to $12,50 for Spring Wheat; $13,50 to $14,50 for Winter Wheat, and $16 to $17 for fancy St. Louis brands. Rye Flour, $7,25 to $7,50, and Buckwheat at $6,50.

PROVISIONS—Bacon is firm and higher, being quoted at 10 to 10¼ for Shoulders; 11½ to 11¾ for Ribbed Sides, and 15½ to 16 for Sugar Cured Hams. Prime kettle rendered Lard is quoted firm at 13. Mess Pork quiet and unchanged.

LARD OIL—F. Sellers & Co. quote as follows: No. 2 at 90, and No. 1, $1,07 to $1,08.

SEEDS—Cloverseed is in fair demand, and we can report sales to the trade at $8,50, and $8,75 to $9, in small lots. Timothy is dull but unchanged at $4 to $4,25. Flaxseed is in steady demand at $2,85.

BUTTER—There is a continued good demand for prime Roll Butter, and prices have advanced to 32 to 33—sales of choice reported at 34 to 35. Common and inferior continues very dull.

EGGS—The supply appears to be somewhat in excess of the demand, and prices, if anything, are a shade lower. We now quote at 21 to 22.

HAY—Prime baled is in better demand, and may be quoted at $24 to $25, on wharf and track.

GREEN APPLES—Prime, in good condition, are in better demand and higher, with sales at $4 to $4,50 per bbl. Common to medium range from $2,50 to $3.

POTATOES—Dull and unchanged. Small sales in store, at 75 to 80 per bush.

DRIED FRUIT—Quiet and unchanged—small sales at 9 to 10 for Apples, and 18 to 20 for Peaches.

### PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, March 15, 1867. }

CRUDE—There was an improved demand for crude to-day, and by getting the market excited a little, an advance was established. We can report sales of 2000 bbls for April, sellers option, at 6; 1500 do do, at 6¼; 3300 for April and May, at 6¼; and 1000, on the spot, at 6. From the above it will be seen, that an advance of fully one-quarter of a cent has been established, as the last sales reported were at 5¾ to 6. We can assign but one reason for this advance, and that is the fact that there is considerable inquiry on speculation, a good many "outsiders" having come to the conclusion that it is a good investment at present prices. The advices from the East and Europe are not very encouraging, and there are no buyers in New York or Philadelphia at any advance.

REFINED—There was a fair business done in bonded oil to-day, though the transactions in the aggregate fall short of those of Thursday, while prices, if anything, are a shade lower—sale of 2000 bbls standard white, to run from August to December, at 30; 1500 to run from August to October, at 29½; 500 for July, 29; 500 for August, at 29½; 500 for September, at 30; and 500 on the spot, prime light straw to white, we presume, at 25¾—all delivered in Philadelphia. Free oil is quiet and unchanged; sale of 80 bbls at 40.

ARRIVALS—The following arrivals of oil were reported to-day:

| | | | |
|---|---|---|---|
| Jas. Wilkins | 482 | D. Bushnell | 1700 |
| D. M. Edgerton | 136 | Jackson & Bro. | 1000 |
| Lockart & Frew | 1050 | Forsyth & Bro. | 1000 |
| Total | | | 5368 |

### PITTSBURGH METAL AND BLOOM MARKET—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, March 15, 1867. }

The transactions in metal have again been light this week, at least we have but few sales reported, and those few, as will be seen, are in small lots. Of course, there will be no movement in Metal or Blooms until the mills resume operations, and the indications for this desirable event, we are sorry to state, are about as remote as ever; indeed, both parties, if such a thing were possible, are more firmly resolved not to make concessions. It is reported the mill owners have sent agents to Belgium to get puddlers, but for the truth of this rumor we are not at this writing prepared to vouch, though it seems to be credited by parties who ought to know something about the matter. Some few of the mills are running, using muck bar iron, which requires no puddling, and is brought here from Philadelphia and other points in the eastern part of the State; but, generally speaking, the iron trade, so far as Pittsburgh is concerned, is dead—to use a common but not very elegant expression, "dead as a door nail," with but slight prospects at present of any immediate improvement. There is some little inquiry for foundry iron, but the transactions are unimportant and scarcely worth recording. Manufactured iron is dull, and the same is true of nails, though stocks, we believe, are light for the season. The following are all the sales we have reported.

| | | | | |
|---|---|---|---|---|
| 300 tons | Muck Bar | $75 00 | — | cash |
| 200 do | do | 76 00 | | do |

### Milwaukee Market.

Bacon firmer and in fair demand; sales of 975 boxes at 10½@11½c for Cumberland, 11½@11¾c for short ribbed, and 11½@12c for short clear. ### Cincinnati Market.

CINCINNATI, March 15.—Flour firmer and more active, but prices not higher; superfine, none in the market and not wanted; trade brands, $11,50@13,50, and fancy brands $14@16. Wheat scarce and not much offering; there is no No. 1 spring in the market; No. 1 winter, $2,90. Corn firm. Oats in good demand and the market closed firm at 53@55c for No. 1. Rye scarce, and held at $1,40, with buyers at $1,30. Barley in better demand; No. 1 spring, $1,20@1,25; winter, $1,55@1,60. Whisky firm; at $2,26 in bond. Cotton firm, at 28c for middling, the demand is light and buyers offer 27@27½c. The great overflow in the lower valley of the Mississippi river has stopped the receipts at New Orleans to a great extent, so that light receipts at that point have not the influence in producing a speculative demand they would have under different circumstances; the receipts for the past twenty-four hours were 520 bales. Mess pork inactive, with a speculative demand from eastern operators chiefly; the sales reach 5,000 barrels, at $21@21,25 for country and $21,50@22,00 for city, closing with no sellers below $22 for city. Bulk meats firm; but the demand less active; there were more sellers of country at the close than buyers, at 8@10c for shoulders and sides, about 100,000 pounds sold at 10c for heavy. Bacon in fair demand, and the market firm, at 9½c for shoulders, 10½@12¼c for sides; 10¾c for clear rib, and 12¼c for clear sides packed. Sugar cured hams 15@15½c. CHICAGO, March 15.—Flour firm at the opening with an advance of 10@20c. After the receipt of New York dispatches the market weakened, closing at yesterday's figures. Sheep are in good request at 6@8c; receipts, 5,600. Hogs in light demand at 7¾@8¼@8½c; supply 3,200 head.

## RIVER NEWS.

The river continues to recede rapidly at this point with twelve feet in the channel by the Allegheny marks last evening. The weather was clear and pleasant, and very favorable for out-door operations, but business, we are sorry to say, was not very active at the levee.

The Great Republic was the chief centre of attraction yesterday. She was visited by thousands of our citizens, notwithstanding it had been announced that she would not be open for visitors until Saturday afternoon, all of whom were delighted with this Pittsburgh's last and greatest effort at marine architecture. We presume that the Republic will be examined more closely and criticised with greater scrutiny by the down river press and people, that any other boat that ever left this point, but we feel satisfied that she will be able to pass through the ordeal on her own merits, and come off victorious in every particular.

The America, Capt. Golding, will leave for Nashville this afternoon, taking all the Cincinnati and Louisville freight that offers. The Messenger, Capt. Jesse Dean is announced for New Orleans, and all intermediate points.

The Robt. Moore on her up trip from Portsmouth to Pittsburgh, broke her shaft at Ravenswood. This is the cause of her non-arrival, and we presume, she will not get here until she gets a new shaft, which will take some time.

The Maggie Hays, Capt. Hendrickson, is the regular Saturday packet for Cincinnati leaving at noon. The Maggie is a staunch and commodious packet, offering superior accommodations for passengers, and is in charge of courteous and experienced officers.

The Savanna, Capt. McGowan, is rapidly filling up for St. Louis and the Upper Mississippi, and will be the first boat out for that point.

The Sherman, Capt. G. N. Baker, will leave here on Tuesday next for St. Louis, and passengers and shippers should bear this in mind.

We heard it rumored yesterday that the steamer Louisiana had exploded her boilers near Cairo. It is a rumor only. The Louisiana wasn't built at Pittsburgh and she has not exploded her boilers. If so, we can't trace the rumor to anything reliable.—*New Albany Commercial.*

It is a very rare thing for Pittsburgh boilers to explode, and we are sorry to say, the same cannot be said about boilers made at New Albany and Louisville.

Captain Adam Jacobs, the well-known steamboat veteran of the Monongahela, was made the recipient of a serenade by his friends and admirers, at his residence in Brownsville the other night. Among the serenaders were some Pittsburghers as well as some citizens of Monongahela City, and other points between here and Brownsville. After partaking of a bountiful supply of refreshments, and having a good time generally, in social enjoyment, the serenaders dispersed, after having given the Captain as a parting compliment, "*should auld acquaintance be forgot.*"

The Ezra Porter left Cincinnati for Pittsburgh on Wednesday, and the Importer was advertised to leave on Thursday. The Camelia and Columbia passed Louisville on Wednesday, and the Amelia Poe, en route from from Pittsburgh to the gold regions, was at Evansville on same day. The Leonidas is loading at Cincinnati for New Orleans, and the Emma No. 3 and Waunanita both left there for New Orleans within the past few days.

We clip the following from the Louisville *Courier*, of Wednesday: The Eagle came in from Pittsburgh yesterday with quite a tow of coal for Chas. Miller & Co. The Hornet came down from Pittsburgh without a tow, but takes a fleet of boats to Vicksburg from this point. Fuel is now very scarce along the rivers, with no wood to be had on account of the flood, and the coal is disappearing very fast.

In the case of the owners of the steamer Samuel Orr against the city of Paducah, the jury in the United States Court yesterday rendered a verdict in favor of plaintiffs against the city for $26,001 37½.

We clip the following from the Cincinnati *Commercial*, of Thursday:

The Dan Able has laid up at Memphis awaiting a fall in the river. The *Appeal* says she reports but one landing between here and Vicksburg entirely out of water. The levee has broken at Ashton, at Miller's bend, and in three places at Grand Lake, doing immense damage. The Kate Ellis was sold on Monday to Cook & Rawner, of Jeffersonville, for $7,000. The Kate Robinson is receiving a new pair of chimneys. Capt. R. Robinson will leave for Pittsburgh in this evening's train. At the annual meeting of the stockholders of the Memphis and Cincinnati Packet Company, the following gentlemen were elected directors of the Company: H. A. Jones, W. B. Gibson, Theodore Cook, H. Grotenkemper, Thomas Sherlock, John G. Isham, Jas. W. Gaff, B. F. Davidson and Jas. Bugher. At a meeting of the directors, the following gentlemen were elected officers for the ensuing year: Henry A. Jones, President; Geo. D. Hoople, Superintendent, and J. Wilson Johnson, Secretary. The flood is proving very disastrous. Mound City is inundated. B. J. Blackford, Esq., died suddenly of apoplexy, in Parkersburgh on Saturday last. The Rebecca came up under the bridge last night, and is now receiving for Pittsburgh at the foot of Broadway. The Rob Roy, New York, Swallow and Rowena are below the bridge. Capt. Sam. Hildreth, clerk Bob Wise and the Rebecca's crew have taken charge of the Rowena, now loading for Nashville. Capt. B. F. Davidson yesterday sold $17,000 worth of stock in the Memphis and Cincinnati Packet Company to Theo. Cook, Esq. Capt. Marsh Hays left for Pittsburgh in last night's train. The Camelia, from Tennessee river, and Columbia from Nashville, will arrive to-day. The Caroline, recently sunk in Red river, is reported a total loss. Mr. Palmer, of the Board of Underwriters, left for the wreck last night. The Caroline was valued at $24,000, and insured in the following Cincinnati offices for $18,000; Magnolia, $4,000; and Franklin, Buckeye State, American, and Central, $3,000 each. She is owned by Capt. Geo. Wolfe and Captain Wm. Metcalf. The "Board of Hull Underwriters" was organized on Tuesday at the office of the Commercial Insurance Company. The following officers were chosen for the ensuing year: Jas. H. Carter, President; Daniel Collier, Vice President; H. A. Glassford, Secretary and Treasurer. Committee of Management—M. L. Harbeson, Stephen Morse, B. F. Davidson, T. S. Osborne, Geo. W. Neare and W. P. Hulbert.
